Co-Ops in Politics

Co-operative tobacco marketing is playing a part in local politics in Virginia this year, according to an article in "Tobacco," a trade review. In this article, Plummer F. Jones, writing from New Canton, says in part:

"The one remarkable thing about the dark tobacco situation in Virginia just now is the political aftermath of the defunct co-operative organization. So close ly identified was the association with the actual life of the people of the dark growing counties that now after all co-operative action has ceased, a very strong feeling still exists so strong that various and sundry candidates, on one side or another, are seeking to overcome some of the obstacles which past association with the organization seem now to be placing in their way to office."

"In Buckingham county David Gannaway, a former backer of the Tri-State Association, has come out against Albert J. Terrell, of New Canton, for the state legislature, his one strong pull being with the men who formerly backed the association."

"Colonel Terrell also was a member of the organization, but later on in his career he was not very strong, and refused to sign the latter contracts. Gannaway and friends will use the situation to their best advantage anywhere in the campaign."

"Dr. G. L. Morris, present treasurer of Buckingham county, is opposed by Harry Griffin, former athlete and co-operative backer. Griffin's friends generally assume that their candidate will get most of the votes of the former association, while Morris' friends assert that their candidate will capture more than their part, though Dr. Morris owned and operated an independent warehouse at the same time that he was a member of the association."

"M. K. Davis, one of the best known dark tobacco growers of Buckingham county, is a candidate for sheriff, and is pushing his four opponents hard. He says he will win by hard work as he won fame for dark tobacco growing."

New Goodyear Value

For Ford and Chevrolet Owners

Goodyear has developed a Balloon Tire tread which matches the Goodyear Balloon carcass of Super Twist Cord.

It is the famous Goodyear All-Weather Tread scientifically redesigned for Balloon Tire use.

The sharp-edged, diamond-shaped blocks are placed in a semi-flat design. These blocks grip the road and retain their usefulness longer than any tread heretofore offered.

Long, slow, even tread wear is assured. "Cupping" and uneven wear, so common to many Balloon Tires, are practically eliminated.

Come in and see this new Goodyear Balloon Tire.
